

Our Mission

Maximum Support Services Inc. (MSSI)'s mission is to treat individuals with either Intellectual or Developmental Disabilities just as anyone would want to be treated and that is respect, dignity, and MSSI, to advocate that they are not different from anyone and that they matter.

The goal of our company is to make sure that people we serve are getting their needs met by encouraging them to exercise their "choice" while providing an environment where they can meet their goals, develop their self-esteem, and be safe from any abuse or neglect. MSSI, proposes to support individuals and support their choice in choosing what they want to be happy and successful to live their lives in way that they dream of.

Improving Lives

Our Services

Community Living-Group Home

Maximum Support Services Inc. supports individuals with developmental disabilities in an Alternative living unit or Group home settings. MSSI residential services focus on the mission of Person-Centered Planning by making sure that all individuals are being served by our agency in the way that they choose. Choice is a preferred preference and Maximum Support Services Inc., will do all it takes to assist them with their wants.

Personal Support

Maximum Support Services Inc. provides Personal Support services guided by the Person-Centered Plan that is developed for each program participant, the program offers choices and increased independence while encouraging productivity and shared community involvement.

Community Development Services

Community Development Services is provided in different settings in the community including volunteering. Maximum Support Services Inc. provides Community Development Services that helps individuals learn new skills and keep the skills they currently have related to their individual goals and outcomes.

Transportation Services

We provide non-medical assistance, training and transport to a participant and the participant's family caregiver, so the participant can access community activities in his or her own community in response to needs identified in the participant's person-centered plan.

Respite Services

Maximum Support Services Inc. provides high quality respite care to participants when they need it. Respite care from Maximum Support Services Inc. provides short-term breaks that relieve stress, restore energy, and promote balance within a household. Our services can help to sustain a family caregiver's health, delaying out-of-home placements.

Nursing Services

Maximum Support Services Inc. provides superiority nursing services that focus on health safety and practices which decrease or avoid adverse outcomes. Nursing services are identified in participants plans which include goals for participant's quality health outcomes. Nursing services include Nurse Health Case Management, Nurse Case Management and Delegation
